

Scramble Rules

- ❖ **Each person hits a ball from the tee.**
- ❖ **The group then selects the best shot/ball**
- ❖ **Everyone moves his or her ball to that location.**
- ❖ **Each person takes another shot. The best shot is again selected and everyone places his/her ball at that location.**
- ❖ **This procedure is repeated until the ball is holed.**

Teams with Three Players

- ❖ **If the group consists of three people, four shots must still be taken.**
- ❖ **After each person has hit his/her first tee shot a member of the team must hit a fourth ball off the tee. The person who hits this ball must continue to hit an extra shot until the ball is holed.**
- ❖ **At the second tee another member of the group must be selected to hit the fourth ball. This player CANNOT be the same player who hit the fourth ball on the last hole. As explained above he/she is responsible for hitting the fourth ball until the ball is holed.**
- ❖ **The player responsible for the fourth ball on the third hole will be the player who did not hit the fourth ball on the previous two tees.**
- ❖ **This three-player rotation must be followed throughout the entire round. The player responsible for the fourth ball must alternate after every hole.**
